

## AGNIHOTRA

Agnihotra is a gift to humanity from ancientmost Vedic science of bioenergy, medicine, agriculture and climate engineering. Agnihotra is the process of purification of the atmosphere through the agency of fire prepared in a copper pyramid tuned to the biorhythm of sunrise/sunset. By practice of Agnihotra you will notice that tension on the mind disappears and you begin to experience peace. The mind is reshaped so nicely, so delicately, so effortlessly by sitting in Agnihotra atmosphere.

After each Agnihotra try to spare as many minutes as you can for meditation. You can sit at least till the fire extinguishes itself. Agnihotra creates medicinal and healing atmosphere. Just before the next Agnihotra collect the ash and keep it in a glass or earthen container. It can be used for plants or making medicines.

If you miss the timing, it is not Agnihotra and you will not get the healing effect.

THE

HEALING  
FIRE

As the vibrations of the planet rise and eventually align with that vibratory rate referred to as 'Kingdom of Heaven on Earth', it becomes increasingly more difficult to live a stress free peaceful life on this planet without practicing some type of spiritual discipline. **Agnihotra Homa** from the science of Bioenergy as given in the Vedas has been found to be efficacious in the area of tension reduction. Ancient Wisdom states that any change induced in the Pranic content of the atmosphere brings about a corresponding change in the realm of mind, since Prana and Mind are like opposite sides of a coin. The **Agnihotra** process is simple to perform and is being practiced by thousands of people in numerous countries all around the world.

The science of **HOMA THERAPY** treats the polluted atmosphere and the healed atmosphere heals all interdependent life forms, including soil, water resources, plant life, animals, and humans.
